Water conservation requested for entire Kalaheo area

KALAHEO – The Department of Water (DOW) has issued an immediate water conservation request for all Kalaheo residents until further notice, due to a fallen tree that has affected the powerline to the area's well site.

Residents and businesses are asked to limit water consumption to essential uses only, in order to avoid a water outage.

Essential water uses include cooking, bathing and toilet flushing. Water conservation measures include refraining from car washing, turning off automatic outdoor irrigation and sprinkler systems, and using water wisely both indoors and outdoors.

The DOW thanks all residents and visitors for their patience and cooperation.

A timeline of repairs is unknown at this moment, but the DOW will send updates when new information becomes available. Kalaheo residents should continue water conservation measures until the request is lifted.
